

HOME & PERSONAL CARE

Cheap or luxury packaging: Ritrama meets every need

Self-adhesive solutions designed for application on **the most varied types of packaging for home and personal care**, where the aesthetics and functionality of the packaging are essential if you want to stand out from the competition. The label material, which is available in a wide range of faces, must either **reflect the value of the packaging** or simply **serve an informative function** and therefore offer excellent results at reasonable prices.

HOME & PERSONAL CARE

Perfectly anchored printing even during use

All the self-adhesive materials proposed for this range are equipped with Top Coating and allow overprinting in Thermal Transfer for the creation of barcodes.

In particular, our Top Coating has been formulated by the internal R&D department to **resist without being damaged in the event that the contents of the package**, such as sunscreen and sunscreen oils, **comes into contact with the label**, to maintain a print always perfect and proof of use.

PRODUCT	ADHESIVE	LINER	FACE WEIGHT g/m ²	FACE THICKNESS μ	SPECIAL FEATURE	DESCRIPTION	
4-RL2C-03417	RI-817/85 PE MIRRORFLEX GLOSS SILVER TC	AP901	WG62	83	85	Squeezable or Shaped Bottles & Special Effects	Gloss silver metallized top coated polyethylene.
