

PHARMACEUTICAL

Perfect and long-lasting adhesion

High quality, safety, storage, and transport standards: self-adhesive materials for pharmaceutical products have demanding requirements and Ritrama has developed robust solutions to meet all these requirements.

Many different application surfaces exist in the pharmaceutical world **ranging from printed cardboard boxes to glass ampoules and bottles.** Small diameter containers, such as **vials**, require adhesives with very high cohesion to keep the label perfectly attached to the application surface.

PHARMACEUTICAL

The life cycle of a drug

The importance of labelling a medicinal product is essential to ensure that the content is always consistent with the information on the label.

To prevent violation, some materials in the range are accompanied by **optical tracer adhesives**, which allows verification that each package is correctly labelled in the production phase and ensure that no tampering has occurred from the time of labelling to the final use.

	PRODUCT	ADHESIVE	LINER	FACE WEIGHT g/m ²	FACE THICKNESS μ	SPECIAL FEATURE	DESCRIPTION
4-RL2B-02846	RI-6996/36 PET GLOSS CLEAR TC	AP908 WM	PET36	50	36	Small diametre containers / Autoclave sterilization	Gloss clear top coated polyester.
4-RL2B-06060	RI-6993/36 PET GLOSS CLEAR TC	AP907 WM	PET30	50	36	Small diametre containers / Autoclave sterilization	Gloss clear top coated polyester.
4-RL1B-01692	FARMA MATT	AP912	WG62	65	60	Small diametre containers	Matt white coated woodfree paper.
4-RL1B-01808	FARMA	AP912	WG62	62	59	Small diametre containers	Gloss white coated woodfree paper.
4-RL2B-03134	RI-697/100 PET GLOSS WHITE TC	AP907	WG62	140	100	Autoclave sterilization / Suspended I.V.hangers	Gloss white top coated polyester.
4-RL2B-05926	RI-699/125 PET CLEAR	AP907	PET50	175	125	Suspended I.V.hangers	Gloss clear polyester.
4-RL2C-02606	HDPE EXTRA STRONG WHITE TC	AP907	WG74	140	165	Suspended I.V.hangers	White top coated polyethylene.
4-RL2C-09459	VALERON 165 TC	AP907-25	PET50 CR1,5X	140	165	Suspended I.V.hangers	White top coated polyethylene.
4-RL2B-03622	RI-697/75+50 PET GLOSS CLEAR	AP907	WG62	190	145	Autoclave sterilization / Suspended I.V.hangers	Gloss clear polyester laminated with a gloss clear polyester.
4-RL2D-03460	RI-7096/60 PP GLOSS CLEAR TC	AP908	PET36	54	60	Suspended I.V.hangers	Gloss clear top coated polypropylene.
4-RL2D-10699	RI-7093/50 PP GLOSS CLEAR TC	AP995	PET30	45	50	Pharmaceutical safety	Gloss clear top coated polypropylene.
4-RL2D-10943	RI-707/50 PP GLOSS CLEAR TC	AP995	WG62	45	50	Pharmaceutical safety	Gloss clear top coated polypropylene.
4-RL2C-05172	RI-847/80 PE MATT WHITE TC9	AP912	WG62	75	80	General Purpose	Matt white top coated high density polyethylenes.
4-RL2C-06173	RI-834/85 PE GLOSS WHITE TC	AP912	WG74	83	85	General Purpose	Gloss white top coated polyethylene.
4-RL2D-09211	RAPIDJET PP MATT WHITE TC	AP912	WG62	54	60	General Purpose	Matt white top coated polypropylene.
