

RI-PELLENT

Long life to digital prints

RI-Pellent is the perfect shield to protect all types of digitally printed graphics from UV rays or aggressive substances.

RI-PELLENT

The perfect shield

This thin and extremely transparent film is the ideal solution to extend the life of any type of graphics, avoiding deterioration caused by prolonged exposure to sunlight or by the erosive action of certain substances and atmospheric agents. The special construction makes it particularly resistant to the effects of solvents, oils, paints and greasy substances, making RI-Pellent the ideal protection also for outdoor applications. Anti-stick properties.
